

# Home Learning Jigsaw

## Beech Class

### 'Explorers'

Dig deep and complete your jigsaw with courage, compassion and creativity.

**Treasure Map!**  
Create a map of an island or jungle including symbols and a key.

Can you put a compass on there too?

What might be North, East, South and West?

**Go on an explorer walk and collect natural items to make a textured picture in the style of Henri Rousseau.**

**Habitat in a box!**  
Create a model or drawing of a habitat an explorer might discover (jungle, desert, cave, ocean). Add 3 animals that might live there.

**Write a simple diary entry about exploring a dragons cave or a jungle.** Think about what you can see, hear, smell, taste and touch.

**Create an explorer fact file!** You can use an explorer we have looked at or research your own.

Amelia Earhart, Frank Oates, Neil Armstrong.

**Keep a simple chart to record the day's weather for a week—just like a real explorer would have to.**

**Explorer Soundscape**  
Make jungle, cave or ocean sounds using your voice or objects at home.

**Draw a maze where an explorer must escape a jungle, cave, forest, underwater city!**

**Draw a picture of yourself as an explorer.** Label it with items and skills you would need.

Choose a piece of the puzzle as your home learning and either bring your completed work into school or email photographs to the school office. When you have finished one of the activities, colour in that piece of the jigsaw to show you have done it. It is up to you how many you do and which one you do first.

*Parents: There will be opportunities for the children to share what they have done during the half term. If you have any questions please contact your child's class teacher.*
