

Oak Class - Summer 2025

Brain Smart - The Art of Being Human

HOMELEARNING CHALLENGE

I would like you to teach a skill to the class. You will prepare a short presentation/demonstration to teach the whole class how to do a skill or activity. This will be a skill that you have mastered and feel confident to teach others. It is up to you what you choose to teach. Ideas below:

How to juggle

How to do a yo-yo trick

How to play a board game

How to make a pop-up card

How to do a crossover in skipping

How to do a keepy up

How to do an overarm bowl

How to ice a cake

The choice is yours.....

We will prepare a timetable together to showcase your talent!
