

Beech Class
Autumn Term 2023
Home Learning Jigsaw
'Fun & Games'

Dig deep and complete your jigsaw with courage, compassion and creativity.

Learn to play a new game. Perhaps ask one of your family members to teach you a game they used to play?

Can you make a new toy out of recycled materials?

Go for a walk and record the seasonal changes that you see. Maybe collect some natural objects to create your own nature display.

Make up a new game of your own and teach someone how to play it.

Ext: Can you write a set of instructions for your game?

Show courage and try a new activity.

Go to the park and draw a map of the route you took.

Draw or paint a picture of your favourite toy.

Have a sort through your old toys that you no longer play with. Donate them to charity so that another child can have fun with them.

Write a diary of a fun day out that you have had with your family. You could add some photographs or some drawings of your own.

Choose a piece of the puzzle as your home learning. When you have finished one of the activities, colour in that piece of the jigsaw to show that you have done it. You can either bring your work into school or ask your adult to email some photos to the school office. It is up to you how many you do and which one you do first.

Parents: There will be opportunities for the children to share what they have done during the term. If you have any questions please contact your child's class teacher.
