

MAPLE CLASS

Autumn 2024-2025

'Stones, Bones and the Metal Man'

Choose a piece of the puzzle as your home learning each week. Record what you have completed by taking photos and sharing them with the class or bring them in.

Create your own Neolithic, Bronze Age or Iron Age weapon artefact. Try to use only materials they would have had in these time periods.

Paperclip challenge

How many paperclips can you attract to a magnet?

Build your own model of Stonehenge using a material of your choice. Research the different stone circles in the UK and plot them on a map.

Create a leaflet for 'How to survive the Stone Age'

Imagine you are transported back to the Stone Age and need a guide to help you survive.

Devise a quiz about the Neolithic period, Bronze Age and Iron Age.

Conduct a survey of things made of metal in your home.

People living from the Stone Age to the Iron Age were hunter gatherers.

Write a recipe for a meal made from caught or collected ingredients.

Create your own Iron Man or robot out of recyclable materials

Design an experiment to explore rusting of metal.

Dig deep and complete your jigsaw with
Courage, Compassion and Creativity
